----------------------------------	----------

The income derived from the Stearns fund is paid into the town treasury, as by the terms of the will the town is re-

quired to pay the sum of one hundred and fifty (\$150) a year to Emma Stauffer during her natural life, and at her decease the entire income becomes available for library purposes.

No income was received from the Caldwell fund, the money being advanced by the Savings Bank of Walpole to purchase the Government Bond until payment of the legacy was received from the executor in September last. The income from the other funds is paid directly to the Library committee.

Respectfully submitted,

WARREN D. KNOWLTON,
(Term expires 1919.)

CHARLES H. BARNES,
(Term expires 1920.)

We have examined the securities held by the Trustees of the Trust Funds of the Town of Walpole, and find them to agree with the foregoing statement.

Walpole, February 12, 1919.

REPORT OF COMMITTEE ON TOWN LIBRARY

During the past year 203 volumes have been added to the library making now a total of 11,518 volumes. In addition to those purchased by the town the following donors have presented books for which the committee wish to extend thanks:

Mrs. Alice Gilbert,	1
James D. Fessenden,	1
Henry K. Willard,	1
Mrs. Hudson E. Bridge,	1
Mrs. Annie B. Williams,	1
Mrs. Elizabeth Tobey,	1
Mrs. Alexander Davidson,	1
Mary L. Waré,	1
Miss Frances C. Howland,	3
John A. Dana,	1
Miss Helen Wotkyns,	1

During the year three iron sections of shelving have been added to accommodate the increasing volumes and it is the intention of the committee to gradually change from the present wooden shelving to modern up-to-date iron shelving, thereby increasing shelf space and lessening the danger of fire.

At different times during the past year the committee have collected and forwarded through the American Library Association books for the American Expeditionary Forces in France, more than 250 having been sent across from this library.

During the past year the Martha A. Caldwell bequest of \$1000 has been accepted by the town and the funds will be available for the coming year.

The Library has been well patronized during the past year and shows a healthy increase over preceeding years, notwithstanding the fact that during the fall the committee deemed it wise to close it for some weeks on account of the epidemic of influenza.

The committee would respectfully recommend an appropriation of \$500.00 for the ensuing year.

REPORT OF THE SUPERINTENDENT OF SCHOOLS

We respectfully submit this our fifth annual report to the citizens of the town of Walpole. In the statistical table following we give the principal items of interest taken from the registers kept during the past school year. Names of teachers beginning this year are given in parenthesis.

Owing to the scarcity of teachers it has been difficult to secure teachers fitted for the positions at the salaries we have been paying. The summary here given show more changes than there should have been. Mr. Sellers was called to service. Mr. Harper changed his work after the death of his wife. Mr. Woodberry finished the year, but entered the service during the summer. Unsettled conditions have affected the teaching force in all sections. With us it has not been so serious. While we have twelve new teachers this year, yet we were able to secure teachers to fill the positions. The prevailing epidemic has seriously affected the work of the schools. Nearly all of the schools have lost six weeks at least. Part of this can be made up, but the school year of the usual length can not be completed. We have been working to further install in the schools the work as prescribed in the new state program of

studies. While the reorganization is just starting at North Walpole, we have it nearly completed at Walpole. The work of the junior high school is the principal feature of the work. We have the approval in Walpole of the state for both the junior and senior courses covering six years of the life of the pupil. While the work has been progressing, yet we have made no radical changes. The normal schools are turning out a few teachers each year fitted for the new work. There are so many calls for them that it is impossible to secure as many as we need. This necessitates a partial introduction of the curricula or a training of the teachers in the schools.

To secure national aid and to keep in line with the other schools of the state we reorganized the agricultural work at Walpole to conform to the requirements of the Smith-Hughes law. It seems to be working well, but requires emphasis upon the industrial subjects. The schools and the pupils must do real work in agriculture. Because of the increased work in this department, it has been necessary to omit the manual work in grades five and six at Walpole. This was a war measure and we hope to continue the work in these grades as soon as we can adjust the teaching force.

The teachers have been aided in their work as in other years. Text books have been secured and adjusted to meet the needs of the pupils and the state program. Single copies of supplementary reading have been secured for the school libraries. The work done in this line is very profitable. The

pupils are given a broader content, and the younger grades are improving in reading facility. We have received the co-operation of the Library in supplying the schools with reading material for the upper grades.

The ending of the war has relieved the schools of a part of the unusual strain, and we hope that conditions will soon become normal. The scarcity of teachers seems to continue, but we think that the running expenses are about as high as they will go owing to war influence. We are planning no innovations other than the natural development of the courses already started. It seems likely that the ninth year at North Walpole will become a first year high school next year. Other minor changes may be necessary.

The effort to interest the pupils in home gardens under school supervision will be continued this year under the direction of the national board of education and will be called the War Garden Army. There is an appropriation for this purpose and with this aid we hope to have supervision of the gardens and the Smith-Hughes projects this summer. The need for thrift and saving still exists. The value of the home garden has been demonstrated. The pupils have felt the responsibility resting upon each one and done what they could. They have learned that time is valuable and habits of thrift have been formed. We need the cooperation of the parents in this matter, and we believe you will be as willing to give it now as in the past.

We hope for your continued support in making the schools of Walpole as good as any in the state. Our pupils are standing well in college and in normal school. We are looking for greater state and federal aid to equalize the financial burden which we are carrying. We wish to thank the people of Walpole for their loyal support. The teachers and the school board have worked with the superintendent in the work of the year, and through the cooperation of all working together, we hope for a successful year.

E. J. BEST,
Superintendent.
